Mr. LaMar Bluth  
777 South 400 East  
St. George, Utah

Dear Sir:

In order to perform the responsibilities of our agency, the Utah Bureau of Water Pollution Control needs access to the facilities on your property at Leeds to inspect the cyanide silver leach project that was in operation there several years ago. These inspections are permitted by Utah Code Annotated Section 26-11-14(1).

Mack Croft and C.C. Patel of our Bureau would like to schedule this inspection for noon on Wednesday, January 24, 1990 and would appreciate your presence to open gates and answer questions. An inspection has not been made for some time, and for various reasons, previous arrangements could not be kept.

Sincerely,

Fred Pehrson, Manager  
Permitting, Compliance & Monitoring Branch  
Bureau of Water Pollution Control
